

Please know that living in Indiana has become much more tolerable since the Telephone Privacy law was enacted. My husband and I do not wish to have this law tampered with by anyone. It is my understanding that the Consumer Bankers Association is challenging this law. Do NOT, do NOT change the law in any manner. Those wishing to market to myself and fellow Hoosiers have many avenues that they can use. Please DO NOT let the telephone be one of them.

Thank you. John and Carole Brigham
